

Quick Connect filling and Dispensing System with turncock

- No flow loss by check valve
- In two flowing directions usable
- Larger orifice flowmeter

Features:

- Manual shut-off for liquid flow with turncock
- No restrictions for liquid flow stream avoiding turbulence
- Operator has no contact with the chemical-no dripping
- Chemical key coding – all parts are in the dry area

Material: PE natural, CD electrical conductive, PVDF

O-ring: Perfluorelastomer (Kalrez®)

Connection sizes:

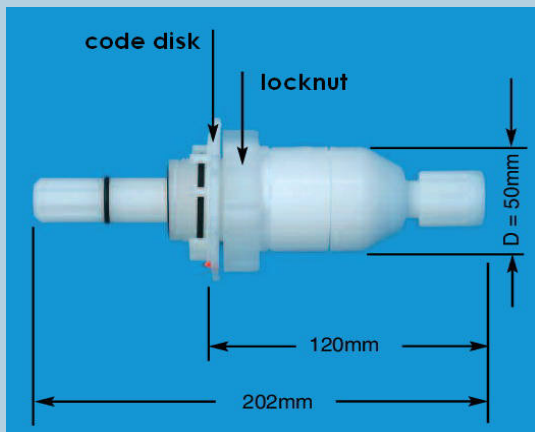

1. Connection for chemical: Flaretek® 3/4"
2. gas/vent: Flaretek® 1/4" or 3/8"

Unusual features:

also available for conductive polymer type

Article Number.: DH-AK-PE-XXX-F3/4"-F1/4"

Measure / circuit points

„open“

„unanimously“
